ABOUT COMPANY

ZUMA IMPEX is a dynamic, research-driven company specializing in 100% coconut shell products, with a strong emphasis on quality and customized solutions.

Our state-of-the-art Coconut Charcoal Briquettes manufacturing facilities, located in Tamil Nadu, South India, are among the best in the world.

Quality is at the core of everything we do, setting us apart in the market.

Our focus on quality begins at the procurement stage and is meticulously maintained throughout the production process, ensuring that every product meets the highest standards. Each batch undergoes rigorous quality checks, from raw material intake to the final product.

We adopt a proactive, hands-on approach to customer service, ensuring satisfaction from sales order processing to product delivery.

Our logistics department professionally handles the packing and shipment of finished products, ensuring they reach our customers efficiently.

We are committed to offering innovative and cost-effective solutions that contribute to better health and a cleaner environment.

ABOUT BRIQUETTES

Briquettes are compact charcoal blocks, designed in standard sizes, that burn evenly and maintain a consistent glow for extended periods. They are crafted from 100% natural ingredients and food-grade binders, ensuring a safe and efficient burn.

Compared to lump charcoal, briquettes offer a longer burn time with consistent heat output until the very end, making them an excellent alternative to traditional hardwood lump charcoal.

Briquettes are not only a reliable fuel source but also an eco-friendly option, providing a sustainable and efficient replacement for conventional charcoal, ideal for grilling, cooking, and heating purposes.

Pillow Briquette

Hexagonal Briquette

Shisha Briquette

Cylinder Briquette

PILLOW BRIQUETTE

Raw material	:	Coconut shell charcoal
Colour	:	Black
Smoke	:	Nil
Odour	:	Odourless
Shape	:	Pillow
Dimension	:	50 x 50 x 30 mm
Weight	:	45 grams
Fixed carbon	:	55 - 60 %
Ash	:	Around 22 %
Moisture	:	5 %
Volatile material	:	15 - 18 %
Calorific value	:	5400 - 6000 kcal / kg
Burning time	:	3 hours

Pillow Briquette Production Capacity

250 Tons Per / Month

HEXAGONAL BRIQUETTE

Raw material	:	Coconut shell charcoal
Colour	:	Black
Smoke	:	Nil
Odour	:	Odourless
Shape	:	Hexagonal
Dimension	:	50 mm dia x 5.5 in Length
Weight	:	350 - 450 grams
Fixed carbon	:	55 - 60 %
Ash	:	Around 22 %
Moisture	:	5 %
Volatile material	:	15-18 %
Calorific value	:	5400 - 6000 kcal / kg
Burning time	:	6 hours

Hexagonal Briquette Production Capacity

200 Tons Per / Month

SHISHA BRIQUETTE

Raw material	:	Coconut shell charcoal
Colour	:	Black
Smoke	:	Nil
Odour	:	Odourless
Shape	:	Cube
Dimension	:	25 x 25 x 25 mm
Weight	:	14 grams approx
Fixed carbon	:	Above 80 %
Ash	:	3 %
Moisture	:	Below 5 %
Volatile material	:	Arround 15 %
Burning time	:	90 mins
Packing	:	72 Pieces / kg

Shisha Briquette Production Capacity

100 Tons Per / Month

CYLINDER BRIQUETTE

Raw material	:	Coconut shell charcoal
Colour	:	Black
Smoke	:	Nil
Odour	:	Odourless
Shape	:	Cylinder
Dimension	:	20 mm dia x 5.5 in Length
Weight	:	14 grams approx
